***Benefiting
Multiple Myeloma
Patients and Families***

Proudly Presented By
The Arizona Myeloma Network

Multiple Myeloma is a complex and often misdiagnosed bone marrow cancer that afflicts more than 1600 new people in the U.S. every month. There is no cure, but current research is greatly extending patients' lifespans.

The mission of the Arizona Myeloma Network, (AzMN), is to promote education, awareness and advocacy for the improved treatment and quality of life for Myeloma patients, their families, and caregivers. AzMN also provides public cancer education programs throughout Arizona with special consideration for the underserved. They are currently delivering a major cancer education program on the Navajo Reservation.

AzMN was founded in 2004 and is a registered 501 (c)(3) Non-Profit Corporation/Charity
